

We Are... COUNSELORS

We are **leaders** within our school communities who **care** for and **connect** to each student; we **inspire** them to see their potential and work toward personal success.

We **advocate** and build relationships of trust.

We **help** students acquire the knowledge, skills and dispositions to be socially responsible, resilient, and successful.

We **counsel** with students regarding their social and emotional needs.

We **develop** an individualized plan for graduation and prepare students to be college and career ready.

We **partner** with our school communities to strengthen climate and culture.

MISSION:

Educate all students to **inspire** learning and to **protect** our freedoms.
